

SD

UroMeter 720™

SD Urine Chemistry Analyzer.
Take increased throughput and improved workflow together with precision.

General Information

- High Capacity - Max. 720 Tests per Hour
- Auto Calibration with power-on
- Automatic Selection from 4 to 11 Parameters
- Quick & Routine Test Mode Selectable
- CIS Module Sensor
- Simple Data Management - Easy to Review Patient Result
- Updating Software by Downloading

Various interface ports

- USB, RS-232c, Parallel printer port
- Up/Down loading test result by Bi-directional interface
- A handheld bar-code reader identifies samples

Wide LCD display window

- Bright and clear LCD
- 18 lines by 24 characters
- Automatic switching to testing mode from standby mode
- Easy to learn and operate

Fast result printing

- High speed thermal printer
- Completed data about patient and the result
- Highlighting abnormal result for quick review

LED indicator

- CIS Module sensor
- Urine color & clarity determination : Eliminating the non specific result from turbid urine

Various testing parameters

- Immediate start-up streamlined operations.
- It works with various urine chemistry dipsticks (parameters 4, 5, 6, 7, 8, 9, 10, 11)

Continuous & automatic dipstick loading conveyor

- Taking exact position through movement
- Easy maintenance by dismantling

Compact size, high capacity

- Light weight : 2.4Kg
- Throughput : 720 tests/hour
- Compact size : 320 x 260 x 178mm (W x D x H)
